

Environmental Controls on Biosphere-Atmosphere Exchange of Methane

Desai EcoMeteorology Lab

Dept of Atmospheric & Oceanic Sciences

University of Wisconsin-Madison

Summer 2012, NSF REU Internship, 10 weeks @ \$12-15/hour

Interested in...

Climate change?
Northern forests and wetlands?
Carbon cycling?
Very tall towers?
Infrared gas spectrscopy?

Experienced in...

Ecosystem Ecology?
Atmospheric Science?
Statistics?
Computer programming?
-or- Scientific instrument design?

Then Apply to our NSF REU Program!

Requirements: Undergraduate junior or senior status, available for 10 weeks in Jun-August for 40 hours/week, willing to conduct statistical analysis independently with computer models and/or field sampling of methane chamber flux, ability to write and present results, and collaborate with a dynamic group of scholars in Desai lab at Madison, WI and field station in Woodruff, WI

Want to apply? Visit <http://flux.aos.wisc.edu> and send a CV or resume, transcript copy, and name of three references by March 15 to Prof. Ankur Desai, desai@aos.wisc.edu.
